Bogdan Gugu

FULL STACK WEB DEVELOPER

Profile

Full Stack Developer with a background in Advanced Front End technologies and expertise in backend database setup, React.js, JavaScript, Python, Django, and HTML/CSS. Adept in Agile and Waterfall methodologies, Looking for an entry level position to expand my knowledge and delve deep into programming.

Hands on experience

Personal Projects

AUGUST 2022 — APRIL 2023

My projects, such as ConvergeHub built with ReactJs and Balanced News with django-rest-frameworks, showcase and highlight my ability to develop responsive, user-centered platforms and my commitment to continuous learning in tech, demonstrated by my ongoing education in Python and Cyber Security.

IT Tools: ReactJS, Django-full-framework

E-Commerce Hackathon

JANUARY 2024 — FEBRUARY 2024

In Jan 2024, I joined a Hackathon with Code Institute, earning a certification. As Scrum Master, I led our E-commerce themed project, creating the 'Fund Frontier' NPV Calculator with python. My role enhanced my leadership and project management skills keeping the backend and frontend teams close together.

IT Tools: Python, HTML,CSS,GIT,Scrum,Kanban

JavaScript Hackathon

DECEMBER 2023 — JANUARY 2024

At the Code Institute #CIDecemberHackathon, our team, Tech The Halls, developed 'Quizmas Quest,' a popular JavaScript quiz. In 4.5 days, we showcased our skills, especially in Git and teamwork. Kudos to Kai Michael-Mikhail for the pivotal role. It was an inspiring learning journey!

IT Tools: JavaScript, HTML,CSS,GIT,Scrum,Kanban

Employment History

Facility Manager, Shurgard:

AUGUST 2015 — OCTOBER 2018

In my subsequent role, I focused on assessing storage needs, overseeing facility maintenance, and managing contracts and inventory, demonstrating a strong commitment to operational efficiency and detailed documentation.

Game

JANUARY 2012 — JANUARY 2013

As a Sales Clerk at a video game store, I excelled in customer engagement, offering expert game recommendations, managing financial transactions, and maintaining an inviting store environment through meticulous organization and display management.
